PROJECTS

Mason Leblanc - Photography Portfolio Web App *🔗*, *React.js, Redux Toolkit, Tailwind CSS, React Router* Sep 2026

- Built a multi-page photography portfolio web app with an interactive customizer for Light/Dark modes, color themes, and dynamic font switching.
- Utilized Redux Toolkit to manage global application state, handling real-time UI customization and user preferences.
- Implemented seamless multi-page navigation using React Router with fully responsive Tailwind CSS layouts.

Nexora E-Commerce Platform & Dashboard *🔗*, *Team Lead | React.js, Redux Toolkit, Tailwind CSS, REST APIs* Jul 2026 – Aug 2026

- Served as Team Lead for a 12-member team building a full-stack e-commerce web platform (store and admin dashboard).
- Developed responsive UI components and secure authentication forms using React.js, Tailwind CSS, and Regex validation.
- Assisted team members with code integration, task tracking, and basic Git/GitHub version control.
- Currently rebuilding the full-stack application independently to implement advanced Redux Toolkit state management and API integration.

Kasper - Creative Agency Template *🔗*, *HTML5, CSS3, JavaScript (ES6+)* Dec 2025 – Jan 2026

- Built a multi-section, responsive agency template from scratch using standard HTML5, CSS3, and JavaScript.
- Implemented custom CSS Flexbox and Grid layouts to create complex responsive designs without external CSS frameworks.
- Added dynamic UI interactions using JavaScript, including portfolio category filtering and responsive navigation.

Responsive Food & Restaurant Website *🔗*, *HTML5, CSS3, Bootstrap 5* Sep 2025 – Oct 2025

- Designed and developed a modern restaurant landing page featuring a customized dark theme.
- Utilized Bootstrap 5 grid system and UI components to ensure full responsiveness across all screen sizes.
- Structured clean, semantic HTML5 markup combined with custom CSS3 styles for polished layouts.
